SLAC email deactivation

New eligibility requirements for SLAC email accounts

Starting May 12, SLAC email addresses will be issued only to employees, interns, Stanford employees working at the lab, Department of Energy personnel, and hired workers. All other individuals seeking SLAC credentials will need to use their primary, home institution, or other external email address instead. They will not be issued a SLAC email address. This includes facilities users and visitors.

This change has no effect on SLAC computer accounts.

<https://intranet.slac.stanford.edu/news/2023/05/new-eligibility-requirements-slac-email-accounts>

Current SLAC email account holders who do not meet the new eligibility requirements, including retired staff, will have their accounts deactivated over the next few months, and will be notified of deactivation. These account holders are encouraged to use an external email address instead.

Over the next few months, SLAC IT will notify affected account holders directly, and email addresses will be deactivated 30 days after the notification.
